CROWN PRINCE'S ROMANCE

After Third Attempt, the German Ambassador at Paris Successfully Appealed to the French Authorities,

PARIS, Nov. 17.-Latest disclosures concerning the recently printed story about the infatuation of the Crown Deacon bring to light a most astounding story of attempted blackmail by a Paris journalist. It is stated on the best of authority that a man claiming to represent the newspaper that first printed the story collected 10,000 francs from Mrs. Deacon and 50,000 francs from Prince Radolin, the German Ambassador to France, by threatening to

exploit the story further.

Even this did not satisfy the blackmailer. He went after more, and only the intervention of the Minister of Foreign Affairs and the State's Attorney broke up the scheme. The humiliating part of it is that neither Mrs. Deacon nor Prince Radolin has any redress, because further publicity would serve only to bring greater notoriety to an affair that has been almost forgotten.

Kept Up His Demands.

According to the report current in the American and German colonies in Paris Mrs. Deacor was approached by the self-styled representative of the journal that printed the first two stories of the alleged affair between the Crown Prince and Miss Deacon. She was informed that a third article had been prepared and would be printed unless 10,000 francs should be paid. It was intimated by the journalist that there were other articles in preparation to follow the third, and that they would create a tremendous sensation. The nature of these threatend pub-

con hurried to the German Embassy and saw Prince Radolin. She represent ed to him that as the Kaiser and his lamily were as deeply interested in the matter as herself the influence of the German Government should be exerted to prevent the blackmailer from annoying her further. The Prince, who is in the friendly confidence of the Kaiser isreported to have commended Mrs. Deacon for her prompt payment of a sum suppress the publication. But, he said, according to set diplo-matic usuages, he could not interefere officially because the Deacons were not German subjects. He advised that in case of further annoyance she should appeal to the American Ambassador.

The Blackmailer Silenced.

Within a short time the blackmailer made a call upon Frince Radoin. He clouded and the produced a mass of alleged affidavits from English servants purporting to reveal a condition that would astonish the world if printed in connection with the flirtation between the Crown Prince and suppery and dangerous. the American girl. These alleged affidavits had not been presented to Mrs.

The astute diplomat asked the price of the documents. He was told that 50,000 francs would buy them. He paid the money, but was careful to see that he got every scrap of paper he was purchasing. No more articles appeared in the newspaper in question about Miss Deacon and the German Crown Prince, and the victims of the blackmaller supposed that he was satisfied.

But it was not so. A few days ago he called again at the apartments of Mrs. Deacon. This time he carried a set of alleged affidavits, the exact duplicates of those sold to the German Ambassador. He informed Mrs. Deacon that Prince Radolin had been duped by cleverly contrived copies and that the originals were those presented to her astonished gaze. His price to keep them secret was 50,000 francs.

Her previous experience had made Mrs. Deacon cautious. She secured de-Mrs. Deacon cautious. She secured de-lay on pretense of consulting her banker about raising the money. Instead she went to Princs Radolin. Then came an appeal to the French authorities and the curbing of the blackmailer.

No confirmation of the report can be gained from either Prince Radolin or the Minister of Foreign Affairs, al-though both admit that the Prince part-ed with 50,000 francs. But not for black-mail! The money, they assert, was do-nated for "hygienic purposes," to ald some grave philanthropic undertaking.

left his family yesterday morning to go to Yonkers, where he is employed as an electrician. He went to Glenville and visited his sister-in-law, Louise Locber and drank during the day. He heard Brennan, who was a neighbor of the Leebers, and John Ramsey talking about a coat. He thought they said one had left his coat over night at the Loebers, and considered it an insult, which he resented. The men and the girl told him to go in the house, and when Brennan with his one hand pushed him away, Boudoin pulled a revolver and sho in the head and he died two hours afterward.

Boudoin then fired at Ramsey's heart, but Andrew Billingsley grabbed his arm and the bullet went through Ramsey's shirt. This morning Boudoin was given a preliminary hearing and then first learned that Brennan was dead. He nearly collapsed, and when he tried to speak he failed. Afterward he declared that he meant to fire only over the heads of the men, and that he drew the revolver in self-defense when he thought a knile was being drawn.

He was held on a charge of murder in the first degree.
